Lump Sum
Price based on
Project Details

Typical Items
Included in our
package.

Shipments
determined by
project size.

Hurri-Bolt is providing our Hurri-Bolt Rod System to replace the strapping called out for Shearwall and Uplift hold downs. Our signed and sealed shop drawings will call out the locations and the types of rods to be used along with the hardware for connecting top plate to trusses.

The **Hurri-Bolt** package **IS A "COMPLETE HARDWARE PACKAGE"**. Items specified below the top plate that are not replaced by our rod assemblies are **INCLUDED** in this package. See page 3 for these items. For items not included, please refer to #5 our General Terms.

Please call me if you have any questions at (813) 626-1676

Sincerely,

Rob Cornett
